Traffic controller instructions:

- Always remain vigilant in your duties and surroundings when implementing, conducting and dismantling traffic control
- Secure traffic control devices remain in the correct location throughout the shift.
- Comply with VicRoads TMC to activate and de-activate Work as required
- Stay Safe and always have an escape route in place
- Traffic Controllers must ensure effective communication (WH) is maintained at all times

This TOS has been prepared by competent & qualified planners in consultation with workers and managers.

- The TOS complies with all relevant codes, standards and guidelines incl. VicRoads Code of Practice 2010 The Road Management Act 2004 and AS1423.2009
- This TOS may be amended onsite to suit additional conditions/hazards and shall be communicated as required.
- Barley's TMS holds no liability of this TOS if implemented outside of Barley's TM.
